

# Jessica Ramey

Hello

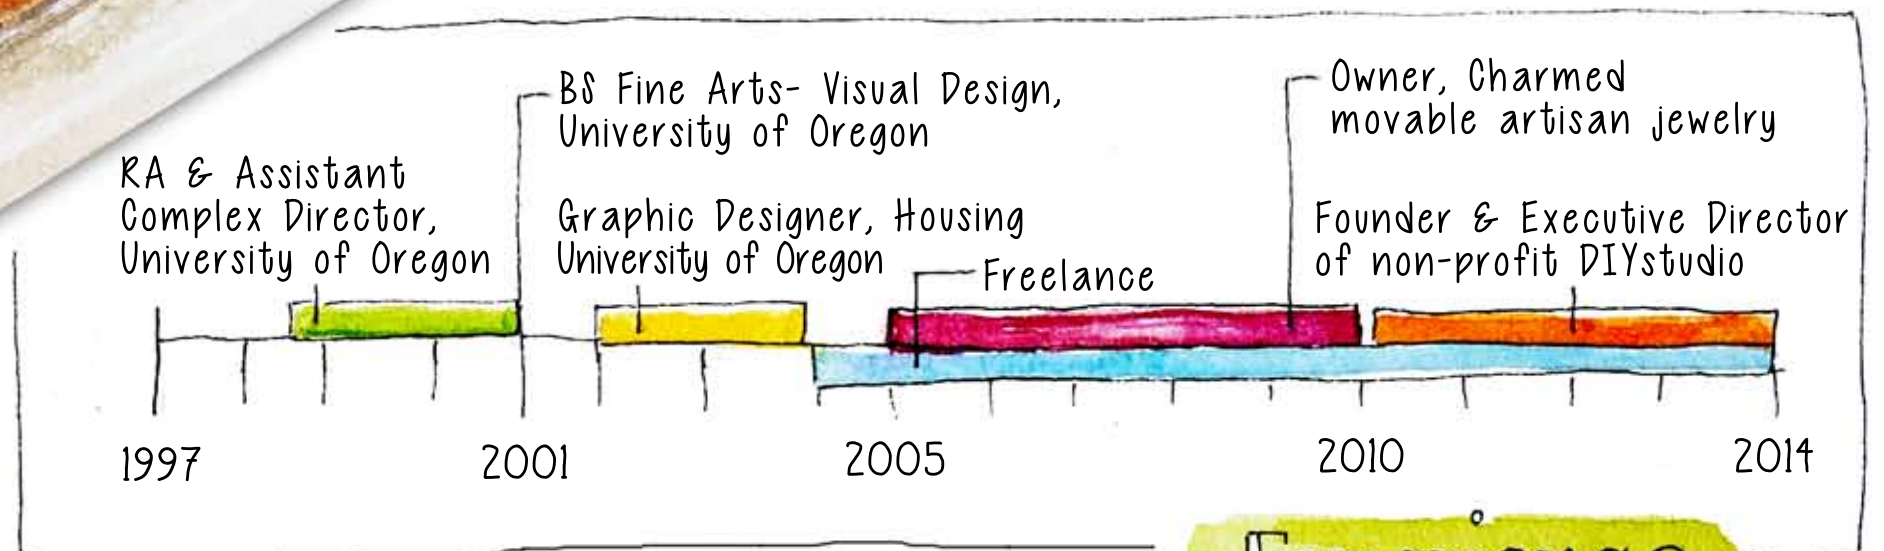

## Graphic Designer & Illustrator

### Toolbox

I like to create upcycled things like this pallet made from an altoids tin and tops of acorns.

I'm a university-trained Graphic Designer and Illustrator with over ten years of experience creating engaging and innovative design for a wide variety of multimedia and print publications. I have experience instructing youth and adults. I've taught over 50 creative art workshops in a classroom setting, developed art curriculum, engaged students, and evaluated programs. I am accustomed to managing multiple projects with varying deadlines, budgets, and details. I encourage creativity, critical thinking, and art appreciation and started FREE ART FRIDAY in Salem that distributed over 250 free art pieces throughout the community. I am the Founder of DIY Studio a 501(c)(3) organization and wrote successful grants and proposals for the Passion Project (American Express), the City of Salem, and Marion Cultural Development Corporation.
